

# Famous Psychologist Photostory Assignment

Names \_\_\_\_\_

Date Due: \_\_\_\_\_ Period \_\_\_\_\_

You will select a partner for this project – no you can't have a group of three. Each group will randomly select a major contributor to the field of psychology from the list below to research. You will prepare a 4-5 picture, narrated (2-4 minutes in length) photostory about your psychologist. While creating your photostory, please address the following:

1. **Brief history – general, not detailed!**
2. **Why is this person important? What did they do – brief overview. Cover Major impact of his/her work in the field of psychology**
3. **What psychological approach are they associated with – give reason.**
4. **Nature or nurture?**

## USING PHOTOSTORY

Photostory is a FREE Microsoft program you can download at home if you use most versions of windows. I would recommend it HIGHLY for presentations. We will have a short instructional briefing on how to use this product prior to you beginning the project.

### Remember:

- You may save your project at any time (SAVE OFTEN!). Save it to your personal directory on the school drive or better yet, to a thumb drive so you can work on it at home.
- Import pictures from the internet or you may use a digital camera and import more personalized photos to demonstrate aspects of your persons biography.
- You may add text to photos, manipulate the order, change how they appear in the show, all kinds of things
- When recording narration, you will record to each, individual picture. Write out your “script”, then get a pair of headphones from me to record.
- You may add music to your presentation, but for this one, it doesn't make much sense since you are using audio narration. But, it's up to you.
- **SAVING YOUR STORY AT THE END.** As you've been working on your photostory, you have been saving it as a photostory project. When you finish, save it, again, as a photostory (in case you want to edit it again). However, what you will turn in to me is not that file. Here, you will “save your story for playback on your computer” and browse the directories, placing it in the share drive-vandenberg directory under the appropriate class period. Name the file by the psychologists last name and the class period. (FREUD-per 2) **MAKE SURE IT'S SAVED IN VANDEBERG!!!!**

## FAMOUS PSYCHOLOGISTS OF HISTORY

Name: \_\_\_\_\_

Period: \_\_\_\_\_

Date: \_\_\_\_\_

Last Name	First	What did they do?	Approach	Nature vs. Nurture
